About Me

Fullstack Developer skilled in building responsive web and mobile apps using JavaScript, React, React Native, Node.js, and SQL. Focused on user experience, performance, and continuous learning. Strong in teamwork and open to innovative solutions.

Projects

CINEVERSE – MOVIE DISCOVERY WEB APPLICATION

React | RESTful API | Firebase | Responsive Design | Personal Project

A modern React-based web app that lets users explore trending movies, browse by genre, and save favorites. Includes user authentication and a fully responsive design with a clean UI.
